- Note :**
1. This certificate will be valid subject to complying with the approval conditions described on the certificate and/or on the Rules of this Society.
 2. This certificate will be invalid from the expiry date aforementioned unless the extension or renewal has been granted to the applicant or the manufacturer.
 3. Any significant changes in the certified system of the above test laboratory without approval from this Society will render this certificate invalid.
 4. If the relevant rules, regulations or standards are changed during the validity of this certificate, the test laboratory shall be re-approved by this Society on the basis of the changes.

Appendix 1

Product Description and/or Approval Condition

Certificate No : GCH49238-TL001

Date of Issue : 13th November, 2023

1. This certificate is valid on the condition that an annual surveillance audit is carried out and satisfactory to the Society.
2. The scope of services on this certificate is valid on a condition that the laboratory is accredited by KOLAS in its relevant scope of accreditation as listed on the Certificate no. KT815 issued on 9th February, 2023 by KOLAS.
3. The testing laboratory shall notify this Society for the following cases and an occasional assessment may be performed by this Society if deemed necessary.
 - Any significant changes to the approved quality system such as changing the test facility or in case where it is difficult to perform the test due to the change of test personnel; and/or
 - Any changes or additions to the approved test field or test laboratory.
4. Tests may be carried out without the attendance of a Surveyor of the Society, but it is to be verified by the person in charge of the laboratory that the test specimen is confirmed and sampled by the Society.
For the purpose of the test specimen identification, the person in charge of the laboratory is to confirm that one of the below signs is marked on the specimen.

R

RR

5. In case where there is any failure occurred during the test, it is to be informed to this Society without any delay for consideration of the test result as well as re-arrangement of the test specimen.
6. In case where other organizations especially request the witness test by a Surveyor or there is any problem with the reliability of the test results, a Surveyor may attend the test with a prior notice. Or whenever a Surveyor's attendance is deemed necessary by the Society, unscheduled visit by the Society is to be permitted.
7. The following documents are to be prepared by the manufacturer and made available at the request of the Society.
 - Quality related documents
 - Raw data of tests
